HOW A SOLDIER DIED.

Heroic Bearing of a Spanish Officer
at His Execution.

HOPED HIS VICTIM WOULD SURVIVE

Captain Clavijo, Who Shot His Superior
Officer, Went to His Death as Though
on a Pleasure Drive, and Bandaged His
Own Eyes.

MADRID, June 6.—Captain Clavijo, who
was executed early yesterday morning for
shooting and seriously wounding Captain
General Rivera, after the latter had
refused him the hand of his daughter on
Monday last, displayed marvellous fortitude
and composure until the last moment.
At 2 o'clock Clavijo was awakened by
the guard, and the sentence of the court
martial and the war minister's confirmation
of the finding of the court were read to
him. The condemned man listened to the
reading without showing any signs of
emotion. He complained, however, that
he had not been allowed to get a good
night's sleep.

After the reading of the death warrant
Major Clavijo slowly, but in a firm hand,
wrote his indictment upon the document
conveying his sentence, and afterward was
visited by two cousins, with whom he con-
versed for some time. He exhibited no
signs of remorse or fear. After taking
leave of his cousins Clavijo wrote farewell
letters to his parents and his sweetheart.
He occasionally spoke to his guards, and
asked them questions as to the condition
of General Rivera, whom he had attempted
to kill, expressing the hope that he would
recover.

At 5 o'clock he was conducted to the
prison chapel, where he attended mass and
made confession. He was then in-
formed that his execution was fixed for 7
o'clock on the field of San Isidoro. As Clavijo
left the prison he was partly sur-
rounded by priests, whom he saluted
quietly. He walked to the prison van
smoking a cigarette, and bowed to the
crowds assembled around the prison gate.
The people acknowledged his courtesy by
cheering loudly for the captain.

The prison van, surrounded by gen-
darmes, proceeded to the square of San
Isidoro, on the banks of the Manzanares
river. There Clavijo alighted and walked
to the center of the square, which was
lined with troops on three sides. His
alight was that of a man who had come
out for a pleasure drive. As he alighted
he was surrounded by the priests of the
Brotherhood of Penance and Charity,
whom he saluted gravely. The captain,
whom he had reached the required position,
bandaged his own eyes and then again
bowed to the people.

The splendid military bearing of the
condemned man aroused the sympathy of
all present, the officer in command of the

guard being noticeably affected, and there
were traces of deep emotion in his voice as
he gave the order to fire. Indeed, he and
many others present were more deeply
moved than was the condemned man him-
self.
He was killed instantly by the first vol-
ley, but according to custom, two shots,
as coups de grace, were fired at the pro-
strate body. The troops then defiled past
the body and the remains were removed.

Carson's Missing Bullion Found.
CARSON, Nev., June 6.—The missing
\$80,000 in gold bullion from the mint, con-
cerning which there has been a govern-
ment investigation for over two months,
was found in the woods of William
Pickler, an employee of the mint. The in-
quiry proved that the stealing was the re-
sult of collusion among men in the melt-
ers' and refiners' departments, but it was
impossible to fix the responsibility upon
any individual. One of the employees named
Henry fled, and several others were ar-
rested and held under heavy bonds. The
bullion was recovered through the confession
of Pickler's mistress, whom he had
struck in a quarrel. Pickler has been ar-
rested, and is also dismissed from the mint
by a telephone order from Director Pres-
ton.

Massillon Miners Appeal for Help.
MASSILLON, O., June 6.—The miners of
Massillon met in the main yesterday after-
noon and voted to accept the new scale of
forty-one cents under protest, and at the
same time framed a strong appeal to Gov-
ernor McKinley to send relief. They ask
for help on the ground that they are now
physically weak from long destitution,
and at the new rate they cannot supply
themselves with the necessities of life,
even with steady work. Mass meetings
were held elsewhere in the district, the
scale being rejected at Navarro, East
Greenville, Dalton and Pigeon Run.

Naval Cadets at Drill.
ANNAPOLIS, Md., June 6.—The drill for
the flag by the four companies at the naval
academy came off yesterday afternoon, in
spite of a thunder storm. The second
company, which won the flag last year,
will keep it another. The four companies
were commanded by Cadets Baldwin,
Bannon, Groesbeck and Butler. Cadet
Bannon, a son of the late Senator Ban-
non, of Maryland. His company also won
in target practice. Cadet Baldwin's com-
pany had the next highest score.

Johnson Cannot Raise the Cash.
ALBANY, June 6.—Tom Eck said today
that Johnson challenged Zimmerman on
June 1 to race for \$1,000 a side within
three weeks at Waltham, Mass., or any
other track known to both cyclists. "Zim-
merman is the champion, and he is the
one to be challenged," said Eck. "John-
son has only \$1,000 to put up, and Zim-
merman knows it. Zimmerman has been
practicing on the Asbury Park track, and
seeks to thus gain an advantage over
Johnson."

SULTAN OF JOHORE DEAD.

An Enlightened Malay Monarch Who Was
a Staunch Ally of England.

LONDON, June 6.—The sultan of Johore,
an independent Malay state, who recently
arrived here on a visit, died in this city
yesterday.

Abu Baka, hereditary sultan of the state
and territory of Johore Muar, was a high
class Malay prince so singularly fair of
countenance that he could not be distin-
guished from an Aryan. He bore a strik-
ing resemblance to Henry M. Stanley, the
African explorer. This was his third visit
to England. Abu Baka was born in 1835,
and was a grandson of one of the Malay

princes by whom the island of Singapore
was first ceded to Sir Stamford Raffles, as
political agent for the British govern-
ment, and succeeded to the sovereignty of
the Johore territory on the death of his
father in 1891. He was one of the most
enlightened princes of eastern Asia, and a
firm ally of the British government. Abu
Baka's government long maintained a
fleet with the British squadron of gun-
boats for the suppression of piracy in the
little seas of their respective possessions,
and the Tannongong's father was pre-
sented by the government of India with a
sword in acknowledgment of the services
he had rendered in suppressing piracy.

THE RIOT ACT READ.

But the Millville Authorities Defeated the
Protest of a Trolley Company.

MILLVILLE, N. J., June 6.—A permit
was granted by the city council at its last
meeting allowing a frame house to be
moved. In order to move the building it
was necessary to cut the wires of the trac-
tion company. When the contractor,
Barnes, and his men attempted to move
the house they were confronted by a gang
of the Millville traction employees, who
began to move the chains which had been
placed on the tracks by the contractor in
order to move the building. Mayor Payne
appeared and told the traction foreman
that he would place the first man in jail
who laid a hand on the chains. The mayor
then swore in a large posse of special of-
ficers and called out the entire police force,
and they were kept on guard all night to
prevent the removal of the chains.

Yesterday Sheriff Shinn arrived in this
city with an order from the court empow-
ering him to read the riot act. It was
listened to in silence. When he had fin-
ished Mayor Payne jumped upon a box
and told the people they did not have to
disperse inside of an hour, and for them
to hold their ground. The contractor kept
his men at work, and now has the house
across the track, though traffic was effec-
tually blocked for several hours.

Inspector McLaughlin's Second Trial.
NEW YORK, June 6.—With the accept-
ance by both sides of the twelfth juror
yesterday afternoon the trial of Police In-
spector William W. McLaughlin for bribery
and extortion is fairly under way.
This is the second time that the inspector
has faced a jury on a trial of the charges
against him, the first trial having re-
sulted in a disagreement. The work of
securing a jury occupied fourteen days.
In length of time, however, it fell far
short of the first trial, when twenty-six
days were consumed before the last juror
was sworn. This time the inspector is be-
ing tried on only one count in the indict-
ments against him.

Evangelist Imprisoned for Perjury.
BALTIMORE, June 6.—Judge Dennis yester-
day sentenced William H. Russell, an
Evangelist from Savannah, to three years in
the penitentiary for perjury. Russell
was tried in the criminal court on April 16
on a charge of bigamy preferred by Ida
Hugel. It was claimed at the time that
Russell had been married in Savannah, Ga.,
last August to Mary Hall. Russell
swore that he had never seen Mary Hall
before the day of the trial, but the mar-
riage was proven.

A Penitentiary Warden Removed.
TOPEKA, Kan., June 6.—Governor Mor-
rill has removed S. W. Chase from the
wardenship of the penitentiary and ap-
pointed J. Bruce Lynch, of Chanute, as
his successor. Chase was found guilty of
immorality and malfeasance in office.
Chase's lawyers claim that Governor Mor-
rill's action is illegal. It is rumored that
Chase and his adherents are arming them-
selves, and will, if necessary, hold the of-
fice against Lynch by force.

Death of an Eminent Congregationalist.
WINCHESTER, Mass., June 6.—Rev. Dr.
Henry Martin Scudder, the eminent Con-
gregational missionary and clergyman, died
at his home from an attack of apoplexy.
He was stricken while on his way to
the funeral of Thomas P. Tennyson on
Monday. Dr. Scudder had been in ill
health for some time. He was 73 years
old.

General Harrison's Movements.
CAPE MAY, June 6.—Ex-President Har-
rison, who came from New York to Phila-
delphia yesterday to visit ex-Postmaster
General Wanamaker, is expected here for
a couple of days to look after his cottage
before leaving for Indianapolis.

NEW JERSEY REFORMS.

Measures of Economy Passed by
the Senate.

A GREAT SAVING IN PRINTING.

The New Legislation Will Save the State
\$75,000 to \$100,000 Annually on This
Item Alone—To Reduce the Number of
Senate and House Employees.

TRENTON, June 6.—The senate yesterday
forenoon passed bills which were the out-
come of the state committee's investiga-
tion. One of these reduces the number of
officers and employees of the house and sen-
ate, making an annual saving of \$10,000.
Another provides that after Nov. 1, 1895,
no money shall be drawn from the state
treasury, except where explicitly ap-
propriated in the annual appropriation bill.
Among the bills introduced was one for
bidding printing of any laws or public
documents in any language other than the
English.

In the afternoon the senate passed three
more bills in conformity with the recom-
mendations of the investigating commit-
tee. One of these repeals all laws now in
force relative to the printing of the laws
in the newspapers, and another provides
for the printing of the laws in sheets and
in pamphlet form. Four thousand sheets
are to be printed every week while the
legislature is in session, and distributed to
members of both houses every Monday
night as well as sent to the different county
and municipal clerks for placing on file
for public inspection and for circulation.

After the adjournment of the legisla-
ture 21,000 copies of all the laws enacted
are to be printed in pamphlet form to be
distributed in the same manner as the
sheets. This printing is to be done by
contract, and it is estimated that it will
save the state from \$75,000 to \$100,000 a
year. Another bill passed provides that
the senate and house journal and all cur-
rent printing of the legislature shall also
be done by contract.

More bills were introduced to carry out
the recommendations of the investigating
committee. Among those were: Reduc-
ing the fees of the clerk in chancery and
the clerk of the supreme court by provid-
ing that the former shall receive no fees
for filing papers wherein the services are
rendered to the state, and that the latter
shall only receive about 90 per cent. of the
present fees for making searches; requir-
ing the supreme court clerk and the clerk
of the court of chancery to make a
sworn quarterly report to the comptroller
of the gross fees received by them, and of
the expenses of their offices; compelling
the secretary of state to make weekly re-
turns in detail to the comptroller of all
fees and other moneys received by him for
the use of the state, and providing that
all fees received by the secretary of state
as clerk and register of the prerogative
court shall go to the state; putting the
state dairy commissioners under the con-
trol of the state board of health; requir-
ing that all applications for pardon or
parole or remission of fines shall be filed
with the clerk of the board of pardons
thirty days before action is taken on the
same.

Senator Ketcham endeavored to have
passed an act giving to Mayor Leubecker,
of Newark, the power to make appoint-
ments in case of councilmanic vacancies.
The object of this bill was to anticipate
the possible decision of the court of errors in-
validating the election of councilmen in
Newark, the next spring under the redistricted
ward lines. The bill went over.

Illinois National Silver Delegates.
SPRINGFIELD, Ill., June 6.—The com-
mittee appointed by the Democratic cur-
rency convention to select four delegates
at large to a national silver convention
selected John P. Hopkins, of Chicago; Sec-
retary of State W. H. Hinrichsen, Hon.
George B. Fithian, of Jasper county, and
Gen. Lewis B. Parsons, of Clay county.
The committee on permanent organiza-
tion elected vigorous applause by naming
as permanent chairman Judge S. B. Mc-
Connell, of Chicago. Judge McConnell
made a vigorous speech, which was en-
thusiastically applauded.

The Situation at Peralto.
PERALTO, Va., June 6.—The situa-
tion is practically unchanged. The meet-
ing between tunnels was attended by 350
men, mostly colored. Webb opened the
proceeding, by telling the men to stand
firm in their demands. He was mild in
his remarks. Lawless afterwards ad-
dressed the meeting and was abusive, de-
nouncing the operators as thieves and
liars, and Governor O'Ferrall as a rebel
and scoundrel.

Fall of the Formosa Republic.
HONG KONG, June 6.—The Chinese in
the northern part of Formosa are com-
pletely demoralized. The people have
joined the soldiery in rioting and looting,
and there is chaos everywhere. The rioters
have burned the government buildings at
Taichifu and Hobe. The republic has col-
lapsed and Tang, the rebel governor, has
fled. The foreign residents are all safe,
but their anxiety is great.

Turk Wounds a French Officer.
CONSTANTINOPLE, June 6.—In a dispute
here between a Turkish officer and the of-
ficer of a French steamer regarding bag-
gage the former drew his sword and
wounded the other. The French
ambassador promptly demanded satisfaction
from the Turkish government, and the
latter agreed that the Turk should be
tried by French law.

Charged With Conspiracy.
COLUMBIA, S. C., June 6.—A big sen-
sation was created here by the arrest of
Liquor Commissioner Mixon and Con-
stable Bench, at the instance of Dr. Samps
Pope, who charges them with conspiracy
to interfere with interstate commerce. The
case was brought by reason of the seizure
of two barrels of beer shipped from Aug-
usta to C. J. Beck and W. F. Muller, of
Columbia.

THE ORGANIZED INCENDIARIES.

More Arrests Made, and a Witness Charged
with Perjury.

NEW YORK, June 6.—The grand jury in
the court of general sessions found an in-
dictment against Isaac Zucker, a well to
do tailor, who is under arrest at Union
Hill, N. J., on the charge of arson, the al-
legation being that he was connected with
the gang of incendiaries of which Morris
Schoenholz was said to be the chief oper-
ative. Abraham Krone, of Brooklyn, is
also under arrest on a charge similar to
that preferred against Zucker. In addi-
tion to these arrests, Morris Weiner was
arrested on a charge of perjury.

Weiner made the affidavit on which
Schoenholz was arrested last Wednesday.
In it he swore to having been present
when Schoenholz and Harris Deutsch en-
tered into an arrangement by which
Schoenholz agreed for \$50 to set fire to
the tenement in which Deutsch lived.
Weiner gave all the details of the transac-
tion, even to having seen Deutsch pay
Schoenholz \$20 in advance to bind the
bargain.

When Schoenholz was arraigned for ex-
amination Weiner, when examined, could
not, or at least pretended he could not re-
member any of the occurrences to which
he had sworn in his affidavit.

CORNELL OARSMEN AT HENLEY.

The American College Athletes Cordially
Greeted in England.

SOUTHAMPTON, June 6.—The steamship
Paris, with the Cornell crew, which is to
row the Henley regatta in the contest
for the Grand Visitors challenge cup, ar-
rived here last evening. All the American
oarsmen were in fine condition. The oar-
smen highly praised the officers of the
Paris for the kind manner in which they
had been treated while on board the
steamship.

The Cornell boys had difficulty in land-
ing, as all the passengers and officers of
the Paris wished to personally say good-
bye to them. On the dock the crew found
a number of old Cornell university men,
now resident in England, waiting to wel-
come them ashore. The young men from
Ithaca were warmly cheered as they left
the ship, and all of them spoke hopefully
of their chances of winning the cup.

The Cornell crew remained at South-
ampton last night, and went directly to
Henley today, where a delightfully situ-
ated house has been rented for their use
by Commodore W. T. Hastings, of the
Cornell navy.

Evangelical Lutheran Synod.

HAGERSTOWN, Md., June 6.—Beneath
the tall spire of St. John's Lutheran
church, this city, a large congregation
gathered last night to participate in the
opening services of the thirty-seventh an-
nual convention of the general synod of
the Evangelical Lutheran church. The
synod meets biennially. It will be in ses-
sion several days. Last night's services
included an historical sermon by Rev.
Charles Albert, D. D., retiring president
of the synod and literary editor of the
Lutheran Publication society, Philadel-
phia, and addresses by Rev. S. W. Owen,
D. D., pastor of St. John's Lutheran
church, this city, and Martin L. Koedy,
mayor of Hagerstown.

Our Bonds in London.

LONDON, June 6.—Mr. William E. Cur-
tis, assistant secretary of the United States
treasury, and Colonel Montgomery, of the
United States treasury department, met
the steamer Paris on her arrival at South-
ampton last night, and took charge of the
bonds which were brought over here by
Mr. Logan Carlisle, chief clerk of the
United States treasury department, who
was a passenger on the steamship. The
bonds were brought to London today and
placed in the strong room of the Roths-
childs. After being initiated the bonds
will be formally delivered to the repre-
sentatives of the bond syndicate.

Marti's Body Buried.

HATANA, June 6.—In reply to direct in-
quiries the acting captain general says
there is no truth whatever in recent re-
ports that Marti is still alive. He says
the corpse of Marti has been identified be-
yond the slightest question. No news
concerning Maximo Gomez has been re-
ceived since May 20, the day of the flight
at Dos Rios, where Marti was killed and
Gomez reported as wounded. The body
of the dead man was buried at Santiago
de Cuba yesterday.

Sixty Years Married.

LANCASTER, Pa., June 6.—Jacob Fisher
and his wife Elizabeth, of Rohrerstown,
celebrated their sixtieth marriage anni-
versary on Monday in an elaborate man-
ner. While the festivities were at their
height Mrs. Fisher was stricken with ap-
oplexy, from which she died yesterday. It
is supposed that the excitement of the oc-
casion caused the stroke.

Herbert Spencer Declines a German Honor.
LONDON, June 6.—Herbert Spencer has
decided that certain strongly expressed
opinions of his will disparage him from ac-
cepting the Prussian order pour merite.

NUGGETS OF NEWS.

Mrs. Cleveland and children arrived at
Buzzard's Bay by special train last night.
Maceo's band of Cuban insurgents have
recently destroyed two large sugar plan-
tations by fire.

There were five deaths in Pittsburgh yester-
day from heat prostrations of the pre-
vious days.

Hon. Wayne MacVeigh, United States
ambassador to Italy, has arrived in Lon-
don from Rome.

A. B. Morton, of Maine, auditor of the
treasury for the navy department, has
been removed from office.

Mgr. Satelli, the papal ablegate, advises

helm and other German dignitaries yester-
day demonstrates its complete success.

FITZ IS CONFIDENT.

Has No Fear of His Coming Con-
test with Corbett.

TWENTY-FIVE THOUSAND CASH UP.

Stakeholder Phil J. Dwyer Admits That
the Money Is Now in His Hands, and He
Feels Positive That the Big Purse Will
Be Contested for at Dallas.

NEW YORK, June 6.—The proposed Cor-
bett-Fitzsimmons mill still remains the
topic of discussion among the sporting
men here. Manager Brady said last night
that he was perfectly satisfied with the ar-
rangements made by the Dallas repre-
sentatives and that his man would be in
trim and ready on the day to be fixed by
the Dallas people, which will be in the
latter part of October.

The Associated Press reporter called on
Bob Fitzsimmons at his residence last
night. In response to a number of ques-
tions, the ex-middleweight champion said:
"I feel perfectly satisfied that the con-
test will take place at Dallas, as the busi-
ness men there, through their representa-
tive, Mr. Stewart, seem to be on the level.
There have been some remarks question-
ing my sincerity in this affair, and some
persons have been unkind enough to say
that I will weaken. I can assure you and
the public as well that I am just as ready
to meet Corbett as I would be to meet an
inferior in the ring."

"Corbett, I believe, has said that I was
not in his class, but if Charley Mitchell
was in his class, then I certainly must be,
and I cannot see where I could possibly
be left out. Depend upon my word, Mr.
Corbett has a big contract on his hands,
and when he meets me he will tackle a
better man than he has ever met before.
It is just possible that I may weigh twenty
pounds lighter than Corbett, but I can
easily make up for that, and our relative
weights may be 165 and 157."

Philip J. Dwyer, stakeholder for the
coming fight between Corbett and Fitz-
simmons, when seen today, said:

"I am perfectly satisfied that Fitzsim-
mons and Corbett will meet to test their
scientific capabilities in the latter part
of next October near Dallas. I have now in
my possession \$25,000—\$10,000 each from
the principals for a side bet, and \$5,000
guarantee from the Dallas people. As
yet I have not received the \$5,000 forfeit
money which was promised by Fitzsim-
mons and Corbett, but I feel certain that
the men or their backers will put this
money up before the end of this week."

Mr. Dan Stewart expressed the utmost
confidence as to the posting of the pugil-
ists' forfeit before the end of the week.
"I will remain here," said he, "until next
Monday or Tuesday, and I am quite satisfied
that the arrangements I have so far made
will be carried out to the letter."

Father-in-Law Luke Says Corbett Is Crazy.

NEW YORK, June 6.—A. H. Hummel,
of the law firm of Howe & Hummel, when
asked if there was any truth in the story
that Mrs. James J. Corbett would sue her
husband for absolute divorce, declined to
make any statement. Mr. Luke, the
father of Mrs. Corbett, said: "The case is
in the hands of Messrs. Howe & Hummel.
Jim is quite crazy, that is certain. He has
not been himself at all for some months.
This woman who will be named as the co-
respondent in the action has got such a
complete mastery over him that he does
not know what he is doing. He brought
her to this city only a short time ago, and
they stayed together in some hotel for
three weeks."

Think Ex-Senator Buck Was a Murderer.

SAN FRANCISCO, June 6.—The Evening
Post states that the entire detective force
of this city is convinced that Senator Buck
struck the blows which killed Miss Nellie
Harrington in her flat last Saturday.
Buck died from the effects of injuries sus-
tained by being thrown from a cart while
being driven by a policeman to the office
of the chief of police. The conclusions of
the police are said to be based on the con-
tents of fifteen private letters found in
Miss Harrington's room.

Catholic Teachers Barred Out.

KANSAS CITY, Mo., June 6.—School
teachers professing the Catholic religion
have been barred out of the public schools
of Kansas City, Kan., for the next term
at least. The board of education of that
city, after a lengthy meeting, in appoint-
ing teachers for the full term refused to
give a place to a single Catholic. The
board is, with one exception, composed of
Protestants.

Oscar Wilde Is Picking Outram.

LONDON, June 6.—The Morning Post
reports that Oscar Wilde is insane, and
claims that he has never been confined in
a padded room. It is asserted that Wilde
was started to work at the tread mill, ac-
cording to the usual prison discipline at
Pentonville. After a few days he was
sent to the infirmary, where it was found
he was suffering from melancholia and
stomach trouble. The disorder of the
stomach ceased after two days' confine-
ment in the hospital, and Wilde returned
to the prison feeling greatly relieved. He
is now at work picking oakum. His mel-
ancholia continues, but otherwise his
health is fair.

An Obstinate Prisoner Released.

LANCASTER, Pa., June 6.—Jacob Good,
a wealthy farmer of Conestoga township,
was discharged from jail yesterday after
an imprisonment of about a year and a
half for contempt of court. Good was the
executor of his mother's estate, and re-
fused to pay to his sister some \$900 to
which the auditors found she was en-
titled. Good held that his sister had re-
ceived all the money due her, and when
informed that he would have to go to jail
said he would rather stay there forever
than pay the money. Some time ago he
was brought into court for the purpose of
securing his release, but he again refused
to pay the \$900. His bondsmen have paid
the money thus paving the way for his re-
lease.

Milk Cans, pans, churns, bottles, everything which is used for milk, even down to the baby's bottle—these are things for which you need Pearlina. With Pearlina, they're cleansed more easily, more quickly, more economically, and more thoroughly, than with anything else known. The people who know most about milk say just that. We can't afford to print all the testimonials we hold. They're free expressions of opinion—in conventions, in papers, everywhere where milk folks have a voice. Their enthusiasm about Pearlina is genuine. And it's natural. For all kinds of washing and cleaning, nothing equals Pearlina.

Beware Peddlers and some unscrupulous will tell you, "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, if your grocer sends you an imitation, be honest—send it back.

Regular Bi-Monthly Visit and Last Offer of Free Treatment.

THE ENGLISH AND AMERICAN DOCTORS
(Chartered and Incorporated by Special Act of Legislature, June 10th, 1881.)
Will Arrive and Open an Office at the

Madison House, Middletown, N. Y.,
Thursday, June 13th, 1895
REMAINING FOR 3 DAYS.

SPECIAL NOTICE. Owing to the large number of patients who were unable to consult the doctors at the time of their former visit, they again and for the last time extend the offer and call attention to the fact that on future visits, all new patients will be charged the usual office fee.

ALL WHO VISIT THESE EMINENT PHYSICIANS DURING THE ABOVE DATES WILL RECEIVE CONSULTATION, EXAMINATION, ADVICE AND SERVICES ABSOLUTELY FREE UNTIL CURED.

Young or middle-aged men suffering from Specific or Special Nervous Diseases and IMMEDIATE RELIEF and PERMANENT CURE under the NATIONAL system discovered, formulated and employed by these doctors.

These doctors have been most aptly termed

THE WORLD'S GREATEST EXPERTS.

They point out, locate and describe every ache, pain and disagreeable feeling more fully, clearly and explicitly than has ever been done by any physicians on earth, and better than the patients can themselves; they understand and explain disease at a glance and histories its incipency, progress and termination.

No person should doctor any further or take any more medicine before consulting them. Not only will callers be surprised at their wonderful knowledge of disease, their plain concise explanation of every cause and effect, but at the marvellous rapidity with which their new, common sense, BACON'S treatment goes to the very seat of the trouble giving almost instant relief, and in all cases that have not progressed too far.

A Perfect, Absolute and Permanent Cure. These doctors wish to distinctly understand that they will not take incurable cases—reserving the right to reject any case that in their judgment has passed into the incurable stage. Last year 4,291 were so rejected. At some prior stage these cases were probably all curable. SEE TO IT THAT YOU DO NOT DELAY TOO LONG.

WHISKY TRUST'S NEW PRESIDENT.

How Rice Triumphed Over His Old Enemy, Ex-President Greenhut.

S. M. RICE.
Greenhut's administration of the trust's affairs. It is a long lane that has no turning, and now the obscure whisky salesman is president of the trust and Greenhut has been deposed as president and expelled from the board of directors. Samuel M. Rice is a resident of New York city. Three years ago he began his fight against Greenhut and the trust itself by distributing the product of antitrust distilleries.

Greenhut's famous rebate system, designed to compel distributors to buy their spirits exclusively from the trust, was then in very successful operation, but Rice succeeded in getting a great deal of business away from the trust. Greenhut scorned Rice as unworthy of his notice, but Rice's success in fighting the trust attracted the attention of the eastern stockholders, who were already wishing to oust Greenhut, and when the reorganization committee was formed Rice was asked to become its business adviser. He did so, and it is largely due to his efforts that Greenhut has been turned down and out.

Mr. Rice belongs to a family of fighters and reformers. His brother, Isaac M. Rice, a New York lawyer, led the fight against the old management of the Reading railway, and another brother, Joseph Rice, abandoned his profession because he thought the public school system of the country needed reforming. He devoted a great deal of time and money to the study of the public school systems of Europe, and well loaded and primed with facts returned to America and started on a lecture tour, showing up the alleged weaknesses of our school system. Whether he is right or not is a matter of opinion, but that he believes he is right is pretty well demonstrated by the fact that he devotes his time and his income to the business of school reform without receiving a cent for his work.

The Girl With the Red Hat.

William White is a dispatcher on one of the great trunk lines of the north. He has had a great many amusing experiences with sleepy operators. He said it frequently happened that night operators falling asleep on duty would open their keys and report trains that were purely mythical.
"One night," said he, "I had occasion to call a station down the road for the report of a train. The operator had been out on an excursion during the day and had been attracted by a young lady who wore a red hat, and whom he thought he had met somewhere before, but whom he could not place. He was about half asleep when he answered my call, but he evidently understood what I wanted. Anyhow he began reporting the train. When he had half finished the report, he must have fallen asleep, and the only thing that I could get from him was, 'Who is that girl with the red hat?' He repeated the question several times; then his hand must have dropped from the key, and he slept soundly."—St. Louis Republic.

Pierre Loti's New Book.

A new book, by Pierre Loti, who is best known to American readers through his ideal picture of Japanese life, "Mlle. Chrysanthemum," has just been published in Paris. It is called "Jerusalem" and is exciting a great deal of interest on account of its wide difference from all other books which have been written on the same subject.—New York World.

Autocrat of the Kitchen.

Mrs. Faintheart (at front window)—Officer!

Police man—Yes, ma'am. What's wrong, ma'am?

Mrs. F.—Nothing's wrong, but I wish you'd step into the kitchen and tell the cook not to burn the meat, as she did last night. I'm afraid to.—Pick Me Up.

Beecher generally spoke in a conversational tone, with no great effort at what is commonly denominated oratory. When he rose to a climax, however, his voice was equal to any emergency, but even his loudest tones seemed to cause him little effort.

The hoopskirt was in full feather in 1596. It was then made of iron and sometimes weighed as much as 30 pounds.

In 1861 the French government ordered several lighthouses to be lighted by the electric light.

Nine Months In Bed, Cured in Two y Four Hours.

T. J. Blackmore, of Haller & Blackmore, Pittsburgh, Pa., says: "A short time since I procured a bottle of 'MYSTIC CURE.' It got me out of the house in twenty-four hours. I took to my bed with Rheumatism nine months ago and the 'MYSTIC CURE' is the only medicine that did me any good. I had five of the best physicians in the city, but I received very little relief from them. I know the 'MYSTIC CURE' to be what it is represented and take pleasure in recommending it to other poor sufferers." Sold by J. E. Mills, druggist, Middletown, N. Y.

PLUCKY ELOY ALFARO.

How the Ecuadorian Insurgent Captured a Government Ship Against Great Odds.

Despite a constitutional aversion to work of any character as pronounced as that of the Weary Walkers and Wandering Willies of America, the white popu-

GENERAL ELOY ALFARO.

lation of Ecuador manages to be free from ennui the most of the time. When nature fails to excite the populace by touching off a volcano or opening up a new line of earthquakes the Ecuadorians relieve the tedium of their languorous equatorial existence by starting a revolution. The latest event of this character is the successful attempt of General Eloy Alfaro to drive President Luis Cordero into retirement as chief executive of Ecuador.

General Alfaro is the leader of the Radical party and has been fighting the existing government for ten years. In December, 1884, he landed in Ecuador from the steamer Alajuela with 200 Ecuadorian refugees and started a revolution, but was compelled to retreat to his steamer. On Dec. 8 the Alajuela met the government steamer Huacho, and although Alfaro had less than 100 men, while the Huacho carried nearly 500 troops, Alfaro riddled the government vessel with his cannon, killing or wounding nearly 400 troops, and then captured the ship by boarding. Shortly after the Huacho struck her colors another government warship appeared on the scene, and the victors were compelled to abandon their prize.

After the government succeeded in quelling the revolution Alfaro was exiled to Nicaragua. He has not been idle, however, and his recent revolutionary movement seems to have been so well backed by public sentiment in Ecuador that President Cordero has been compelled to resign in favor of the vice president of the republic.

Ecuador has an area of about 120,000 square miles, and the population, including the wild Indians, is about 1,400,000. The president is elected by direct limited suffrage and holds office four years if he has good luck. Although the inhabitants have plenty of revolutionary wheels in their heads, there are very few wheeled vehicles in the country, which is conspicuous among other things for its lack of enterprise and the presence of a queer snake called equis, that barks like a dog.

The Two Extremes.

Wyoming has the smallest female population, 21,302; New York the largest, 3,020,960.

From Every Climate.

Twenty-nine nationalities are represented in a New York public grammar school. There are in the primary and grammar departments of this school 1,300 children, and at the last census there were represented among them Hebrews, Italians, Germans, Irish, Greeks, Russians, Poles, French, Scotch, English, Welsh, Swiss, Chinese, Silesians, Assyrians, Tunisians (North Africa), Javanese, Kongo West Indians, Cubans, Norwegians, Swedes, Austrians, Hungarians, Herzegovinians, Wallachians, Moldavians, Egyptians, Danes and Armenians. Not over 10 per cent of these children speak English in their homes, the proportion in the primary being under and that in the grammar department over this estimate.

Sunlight.

Seek the sunlight is the advice of all present day hygienists. Patients on the sunny side of the hospital ward recover soonest. The person who always walks on the sunny side of the street outlives his shade seeking brother by ten years. Sleep in rooms where the sun has shed its rays all day. Bask in the sun all you can, and your druggist's and doctor's notes will go to protest.—New York Times.

The Blackstone river, in Rhode Island, was named in honor of Rev. William Blackstone, an Episcopal clergyman and early settler. The Indians called it Paw-tucket, "the forks."

Handkerchiefs first came into notice in England during the reign of Elizabeth.

COUGHING LEADS TO CONSUMPTION.

Most coughs may be cured in a few hours or at any rate in a few days, by the use of Ayer's Cherry Pectoral. With such a prompt and sure remedy as this at hand, there is no need of prolonging the agony for weeks and months. Keep this remedy in your house.

Poor Pie
is responsible for many of man's (and woman's) physical woes—but the pie needn't be poor, and it may bring joy instead of woe. How? Use nothing but COTTOLINE for shortening and the pie crust will be delicate, flaky, delicious, and so healthful that even a dyspeptic can eat freely of it and be comfortable. COTTOLINE can't be equalled as a shortening, and is absolutely healthful. Genuine has this trade mark on every pail. Take no other.

KNOWLEDGE

Brings comfort and improvement and to personal enjoyment when used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid axative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver, and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

STREET ACCIDENT AT WALDEN.

It Wasn't Much of an Accident but It Was Written Up in Great Style.

A team of horses attached to a wagon loaded with lumber ran away in Walden, yesterday, and demolished a surrey. This is the way the Newburgh Journal tells the story:

"Passing the surrey belonging to Mr. Charles Wiggins, one of the planks struck with great force the canopy upright and mowed the canopy down like chaff before a Dakota blizzard. Then the wheels locking carried the lighter vehicle around and crushed both hind wheels. By this time the patient little bay was impressed with a very correct idea that something had struck Walden beside the electric road, and began to kick with much vigor and very material results. The gentle influence that several by-standers tried to exert in their effort to repel the cyclonic symptoms that had so suddenly appeared in the animal, seemed only to stimulate the quine in her acrobatic feat, and thereby impressed her audience with the fact that she was not hypothetical in her conviction of disorder at the other end of the line, and that any further argument on this part was erroneous and bad taste.

"The poor, frightened animal kicked until she was exhausted and lame, and finally decided to trust in Providence."

BASE BALL NOTES.

State League Clubs—May Go to Jersey

—In Need of a Catcher—Second Game of Columbus and Ontario—May Play in Goshen.

—Elmira defeated the Johnstown club, yesterday, by a score of 15 to 6. Chebro and McGreevy were the battery for the latter club.

—Gloversville were defeated by the Schenectady club, yesterday. Score 9 to 4.

—The Columbus will probably take a week's trip through New Jersey, this month.

—The Ontarios are in need of a catcher, Jack Claffey, the regular catcher, who is running on the O and W, states that it is impossible for him to lay off for every game.

—Arrangements are being made for the second game of the series between the Columbus and Ontarios, to be played on the Hospital grounds, Saturday afternoon. The Ontarios say that the Columbus can't defeat them again. Play ball, boys, and talk less.

—The Walden club asks for June 15th for a game with the Columbus on the Hospital grounds. As the home team cannot charge an admission or pass the hat around on the grounds it looks as though the game would fall through. The game will probably be arranged to be played on the Driving Park at Goshen on that day.

UNIONVILLE.

A Quiet Home Wedding.

Correspondence ARGUS and MERCURY.

—The pleasant home of Mr. and Mrs. G. Decker was the scene of a quiet wedding, Wednesday afternoon, their daughter, Miss Chattie, having been married to Mr. Isaac Pettit, at 3 o'clock. The ceremony was performed by Rev. Mr. Morey. Only the relatives and most intimate friends of the parties were present. The bride was the recipient of some valuable presents. Your correspondent extends congratulations and best wishes.

Adopted the Little Pig.

From the Andes Recorder.

A strange occurrence is reported as having taken place at Walter Ames's, in this town, a short time since. Among a litter of pigs there was one very small one, and one day this mysteriously disappeared, and three days afterward was found among a litter of kittens apparently enjoying the same privileges and receiving the same care as the kittens. The only way that the presence of the pig in the cat's quarters can be accounted for, is that the cat had gone to the pig pen and carried it as she would a kitten and placed it among her offspring.

Beware of Ointment for Catarrh that Contains Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally, and made in Toledo, O., by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c. per bottle.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the head, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give ins ant relief.

MORE DRINKING FOUNTAINS NEEDED

Several New Ones Should Be Erected in Different Parts of the City.

Middletown ought to have three or four public drinking fountains for horses, in different parts of the city. The one in Franklin Square is entirely inadequate to meet the demands made upon it. On hot days, it is necessary for drivers to wait their turns and the basin fills up so slowly that often a careless man, or one in a hurry, lets his horse go dry, rather than spare the time necessary for it to get a drink. No city or village loses anything by making every possible provision for the comfort and needs of those who drive into it from the country roundabout it, and Middletown is becoming lamentably deficient in this respect. Besides more drinking fountains would be appreciated by every horse owner in the city. The rulers of our city spend so much money in unnecessary ways that it would be well to vary things a little and spend the comparatively small sum necessary to provide the city with drinking fountains sufficient for the public needs.

HAVEN.

Good Crop Prospects—Coal Trade Improving—Steam Saw Mill—A Six Pound Eel—Snake Stories—Poor Mail Facilities—Other Notes.

Correspondence ARGUS and MERCURY.

—Crops are looking quite promising around here. T. Dougherty has the best corn and the largest acreage of any one around Haven. The potato crop looks unusually promising, but we never had more bugs than there are on the vines now. The hot, dry weather is just what they seem to enjoy.

—Miss Mary A. Moley, of High View, spent Sunday with her parents.

—Messrs. Baker, Rafferty and Tutbill, of Maple Grove, spent Sunday in Haven with friends.

—Appearances indicate that the coal trade is improving. The boats are making very quick time on the canal. They are not very long away from home, either in going for a cargo or delivering it. Boating on the start looked very discouraging, but the boatmen are beginning to have more hope for the season of 1895.

—The new steam saw mill is turning logs into boards at a rapid rate. There is a number of visitors to see it every day. The only fault we have with it is that they blow the whistle pretty early in the morning for us, and not being used to it we are out before we are fairly awake.

—The correspondent of the Port Jervis Gazette here, who reported the weight of the largest eel caught in the kill, this spring, did not give its weight quite heavy enough, as the actual weight of the eel was six instead of four pounds. It was a large one, and Mr. Hosier, to whom belongs the honor of its capture, had quite an exciting time in landing it.

—J. C. Decker, the rattle-snake killer, despatched a hoop-snake on Scales Flats, last week, which was about three feet in length and had a bone on its tail three inches in length. A black-snake was killed down at the dry dock, last week, that was six feet in length.

—The change of time on the P. J. and M. R. R. may be of benefit to the company, but it does not suit the Havenites very well, as we do not receive our mail until 7:30 p. m., as the train leaves Summitville at 10 a. m., too early for the mail on the O. and W. road. Our mail was received May 31st in the worst condition possible. The pouch must have laid out in a very heavy shower, as everything in it was as wet as it was possible for water to make it. There must be some one in the employ of the road that is very careless.

—The May frosts did not do as much damage to fruit here as we expected. Judging from present appearances we will have quite a good crop of fruit.

—George W. Russell, of Maple Grove, reports that he will have a good crop of peaches, as his peach trees are loaded.

A Brakeman's Shave in a Caboose.

Ed. Eckert, a brakeman on the Wilkesbarre and Eastern road, attempted to shave in the caboose of his train, Saturday evening. A sudden lurch of the caboose knocked the razor from his hand and in its flight it nearly severed the thumb of his left hand. At the same time he was thrown headlong into the looking glass, and had his face badly cut. He will shave at home or at a barber shop, hereafter.

YESTERDAY'S BASEBALL GAMES.

National League.

At Philadelphia—St. Louis, 13; Philadelphia, 2. At New York (10 innings)—New York, 7; Louisville, 3. At Brooklyn—Cincinnati, 6; Brooklyn, 4. At Baltimore (6 innings)—Baltimore, 6; Chicago, 2. At Boston—Pittsburg, 4; Boston, 2. The Washington-Cleveland game was called on account of rain at the end of the fourth inning, the score then being: Washington, 4; Cleveland, 1.

Eastern League.

At Springfield—Springfield, 8; Providence, 6.

Pennsylvania State League.

At Allentown—Lancaster, 5; Allentown, 4. At Reading—Harrisburg, 13; Reading, 15. At Pottsville—In the fourth inning, with the score 18 to 11 in favor of Pottsville, rain stopped the game. Carbondale refused to continue when the rain ceased, and Umpire Corcoran gave the game to Pottsville—9 to 0.

Another Alabama Lynching.

BIRMINGHAM, Ala., June 6.—Near Strasburg, Ala., Monday night, Jim Powell, colored, entered the room of Mary Busby, aged 15, daughter of a prominent farmer, and attempted to assault her. She screamed for help. Her father came, but the negro had escaped. A posse was hastily organized and gave chase, capturing Powell near Calera Tuesday night. He was taken back to Strasburg and identified. The posse then left with him ostensibly for the county jail at Clanton, but Powell's body was found yesterday hanging to a tree a mile from Strasburg.

Lambert Gets Another Stay.

TRENTON, June 6.—The supreme court at Trenton has granted the application of Lawyer John L. Sample for a habeas corpus hearing on Monday in the Lambert case. He applied for it on the ground that the supreme court of the United States, in refusing to interfere with the death sentence, should have sent the case back to the United States circuit court in Camden, where Lambert was sentenced, instead of to the supreme court of the state. The supreme court will hear argument on this point.

Mrs. Hedberg Again a Wife.

CHICAGO, June 6.—Raymond Sibley Stephens and Mrs. Jennie A. Hedberg were married yesterday at Grace Episcopal church. The groom is about 25 years old, and has a reputation as a singer. The bride was the widow of the late Captain Hedberg, who was killed by Lieutenant Money at Fort Sheridan a couple of years ago as the outgrowth of a quarrel resulting from the alleged attentions of the Lieutenant to Mrs. Hedberg.

Indiana Miners' Wages Reduced.

BRAZIL, Ind., June 6.—The block coal operators yesterday notified the miners' committee that a cut of five cents on the mining scale would go into effect at once, reducing the price from seventy to sixty-five cents. The miners have been expecting this cut, as a provision in the contract stated that if there was a cut in Ohio the miners in the block fields were to accept a cut. A strike is not looked for. Mine No. 5 of the Brazil Block company closed today, throwing several hundred miners out of work.

Russia to Guarantee a Chinese Loan.

LONDON, June 6.—The Times in its financial columns says that it is rumored that Russia is negotiating with Paris bankers for the loan of £15,000,000 to China upon Russia's absolute and unconditional guarantee.

The French Repulsed.

PARIS, June 6.—Advices received here from Antananarivo, Island of Madagascar, dated May 15, say that the French advance into the interior from Majunga has been repulsed. It is added that the mortality among the French troops on account of the various fevers peculiar to the island is increasing.

Ohio Miners Still Yielding.

COLUMBUS, June 6.—The Shawnee miners as a solid body have accepted fifty-one cents a ton. North Lawrence miners accept nothing less than sixty cents. New Straitsville miners accept fifty-one cents by a delegate vote of 25 to 23.

Dolls Made in German Prisons.

WASHINGTON, June 6.—Consul T. M. Stephan, at Annaberg, communicates to the department of state a report that prison made dolls are being largely exported to the United States from the male convict prison at Untermausfeld, Germany. Mr. Stephan suggested that inquiries should be made into the accuracy of this report in order to prevent the introduction of prison made goods into the United States.

Lavigne Challenges McAuliffe.

NEW YORK, June 6.—Sam Fitzpatrick, manager of Kid Lavigne, has issued a challenge on behalf of Lavigne to Jack McAuliffe for the lightweight championship of America and \$2,500 or \$5,000. Lavigne is anxious to meet McAuliffe, and his manager has offered to deposit \$500 to bind the match.

DAILY ARGUS.

C. MACARDELL,
PUBLISHER.GEORGE H. THOMPSON, Editor
C. MACARDELL, City Editor

A. E. NICKINSON, Business Manager

THURSDAY, JUNE 6, 1895.

Lemuel Johnson and Lettie Armstrong were married in Morristown N. J., yesterday, after an acquaintance of less than twenty-four hours, and an engagement of less than half an hour. There was a little excuse for Johnson, — he is not very bright and was recently discharged from an insane asylum, but the bride, a domestic servant, gave up a good place to get a husband without a cent, the dollar paid the parson who tied the knot having been borrowed from a man who thought it a good joke to help along the hasty marriage.

New York city's Board of Education and the Church Temperance Society put themselves on record, yesterday, as opposed to the bill making more stringent the requirements in regard to compulsory study and instruction in the public schools as to the evil effects of alcohol and narcotics on the human system. The reasons for opposing the bill are that it is unnecessary, too exacting in its provisions, and requires that too much time and attention be devoted to this particular subject. The measure originated with the W. C. T. U., and by excess of zeal the members of that organization seem to have defeated the object which they had in view.

There seems to be a wide difference of opinion as to the significance and importance of the free silver convention, held by Illinois Democrats, yesterday. Gov. Altgeld telegraphs the World that the convention represented ninety per cent. of the Democrats of the State. Comptroller Eckels tells the same paper that the convention represented nothing except the desire of certain politicians, accidentally prominent, to advance their own interests, and that a majority of the Illinois Democrats are against free silver. Senator Palmer says that the convention did not represent the Democracy of Illinois, and that the active constituency of the delegates did not exceed 15,000 voters, and was probably much less.

Among the new laws is one providing for the establishment of a State school library at Albany, under the direction of the Superintendent of Public Instruction. It is proposed to purchase a large number of pedagogical and miscellaneous books which will be sent by mail to teachers or those intending to teach, who apply for them through School Commissioners and Superintendents. Such a library may be useful, and if the miscellaneous books are well chosen teachers may get some entertainment and instruction out of it, but there is no reason why the State should go into the business of running a circulating library for teachers or any other special class. We are getting a long way from the simple ideas of government of those who founded this commonwealth. It is no wonder that the tax rate leaps up to unprecedented figures when the people's money is squandered in all sorts of unnecessary ways.

FEEDING FAT TO COWS

The Cornell University experiment station has just concluded a very interesting series of tests of the effects of feeding fat to cows, with a view to determining what effect such food would have on the richness of the milk. The test was suggested by experiments made at the New Hampshire agricultural station, where cotton seed oil, palm oil, coconut oil, oleo oil and stearine were mixed with rations of hay and feed with the result that analyses of the milk showed at first a slight increase in the percentage of fat in the milk, which soon, however, returned to its normal condition, proving that the individuality of the cow and not the special character of the feed determined the percentage of fat in the milk. A Schoharie county farmer claimed, last year, to have obtained a wonderful increase in the butter yield of his dairy by a liberal feeding of tallow, and this determined the Cornell experimenters to see what they could do with tallow feeding. The results are thus summarized in a recent bulletin:

Five Holstein cows were fed on tallow and, when they had been eating two pounds a day for several weeks and no visible effect was noticed, another lot of five cows was selected, being composed of three Holsteins and two Jerseys. This last lot was on winter feed with tallow most of the time. As with the first lot, there were no variations in the percentage of fat that could be ascribed to the effect of the tallow. At least there was no increase. There were fluctuations in the percentages of fat in the cows of both lots, but they were intermittent and not progressive. The

variations rarely reached one-half of one per cent. The same cows two months after the close of the experiment were still giving practically the same amount of milk of the same quality. The conclusion is that tallow feed does not increase the fat in the milk to any useful extent.

Henry J. Blackham, a Stamford, Conn., milkman, was arrested, Tuesday, charged with manslaughter, in causing the death of John F. King, a victim of the recent typhoid fever scourge. During the epidemic there were over 400 cases and twenty-one deaths. The State Board of Health traced the cause of the epidemic to Blackham's dairy.

It turns out that Charles B. Morton, Auditor for the Navy Department in the Treasury, was summarily dismissed for writing a letter in which he repeated certain stories regarding the personal habits of President Cleveland and Secretary Carlisle. Under the circumstances Auditor Morton's removal will meet with general approval, but if disrespectful language in regard to official superiors is to be a cause for removal why does not the administration extend the rule so as to make it apply to Republican holdovers as well as to Democrats.

DWAARKILL.

Low Water—A General Nuisance—A New Barn—Other Notes.

Correspondence ARGUS and MERCURY.

—The water in our streams is very low. It has seldom been so low at this season.

—A general nuisance is the man whose fences are always down and whose cattle and hogs are trespassing on the neighbors' premises. Such persons are usually irresponsible people from whom no damage can be recovered. No amount of money can compensate for the loss of temper and annoyance and general bad feeling bred in a community by such things.

—Ice cream of quality second to none is furnished every Saturday night by D. D. Terwilliger at his rooms in the creamery at Dwaarkill.

—Wm. Low's house is being repapered and thoroughly renovated.

—Andrew Low, one of our successful farmers, is putting up a large barn, 40x60 feet, with 17 feet posts, with a cellar under the whole of it fitted up for cow stables. Daniel Taylor, of Pine Bush, has the contract.

W. G. Skinner is one of the best known men in Wakefield, Mass. He is a war veteran and everybody's friend. He says: "I had rheumatism and was in poor health a long time. Indications pointed towards the accumulation of impurities in the blood and germs of disease. I was constipated and had no appetite. I evidently needed a good blood purifier and decided to take Hood's Sarsaparilla. It made a change all through my system, gave me an appetite and worked effectively on my blood. I am now perfectly well, my blood has been put in good order, thanks to Hood's." W. G. SKINNER.

THE HYGIENE OF THE MOUTH

In a recent lecture before the Wistar Biological Association, entitled "The Bacterio-Pathology of the mouth, and its significance in its relation to general diseases," Prof. W. D. Miller, of Berlin, stated that thirty-two distinct species of germs has been found in the mouth and that these germs give rise to various diseases.

"Want of space" prevents us from giving Prof. Miller's lecture in full, but the practical deduction is that increased care should be devoted to keeping the mouth perfectly healthy. This will be one of the features of "preventive medicine" the dawn of which is evidently approaching. The logical course for those who attach importance to such things is to use our Ivory Tooth Wash frequently and liberally. It is antiseptic, purifying and cleansing in its effect, very pleasant to use and leaves a clean taste in the mouth, whitens the teeth and sweetens the breath. We make it and we vouch for it as an article of merit. 25 cents a bottle.

—It is noticed that all the song bird tribe were represented in unusual numbers in this section, this spring. The air is vocal with their melodies as not before in years.
—The minstrel entertainment given in Warwick, last week, for the benefit of the Athletic Association was a great financial success, having netted \$185.03.
—Farmer along the Ontario and Western who refused sixty and seventy cents a bushel for potatoes, last fall, are now selling them for fifty cents or whatever they can get for them.
—The body of an unknown man was found on the tracks of the Hudson River road at Fishkill, yesterday morning. He was doubtless killed by a train during the night.
—Considerable freight is being brought to Newburgh from Walden by the electric road and shipped by the Ramsdell boats and the Erie and West Shore roads.
—City gardeners and farmers tell the same story, that potato bugs were never so numerous as they are this year. Eternal vigilance will be the price of a potato crop this year.
—Five Kingston men went on a frog hunting expedition to Woodstock, yesterday, and returned with 476 saddles, which weighed thirty-two pounds.
—A stereopticon entertainment, under the direction of F. S. Stevens, will be given, to-night, in the K. of H. hall for the benefit of Excelsior Lodge, I. O. G. T. Admission ten cents.
—Work on Newburgh's government building will be begun about Sept. 1st. Of the appropriation of \$100,000, \$36,935.53 was spent for the lot, leaving about \$60,000 to be spent on the building proper.
—Rev. Dr. Reed, one of the jury in the Darwood case and who voted to find the accused pastor guilty, has had his salary raised from \$1,500 to \$2,000 by the church at Yonkers, to which he was assigned at the last Conference.
—The ladies of the First Congregational Church will hold a lawn party at Dr. W. E. Douglas's residence, corner South and Washington streets, on Tuesday, June 11th, from 3 to 10 p. m. A most enjoyable time is promised all who attend. Be

sure and make no other arrangements for that time.

—Downsville is arranging for an old fashioned Fourth of July celebration.

—Last night's gentle series of showers did wonders for "garden sassa."

—A bevy of quails, six or seven in number, within the city limits, is a novelty reported by Officer Wilson. He discovered the unusual visitors, Wednesday, on and about the premises of Robert Boak, on Monhagen avenue.

—Although no rain fell in this city, yesterday afternoon, a smart shower passed over Midway Park and the section east of it. In the vicinity of Rock Cut, so much rain fell that the water stood in pools in every hollow.

—The Conglomerate completed its fifth volume, yesterday, and celebrated the event by issuing a special anniversary edition, in a neat cover, which contains much more than the usual amount of interesting reading matter and also many special ads.

—Anthony Schlautenberger, aged seventy-eight years, was taken from Hancock to the Delaware county house, Monday. On Tuesday, he was taken back to Hancock in a coffin for burial. Too bad that the old man could not have been left to die in his old home.

OBITUARY.

Antony Galvin.

Antony Galvin died at the residence of his son, Joseph Galvin, on Cottage street, at 8.40 o'clock, this morning, aged seventy years. He was born in Rome, Italy, and came to this country in 1857 and has since resided in this city. He is survived by his wife and seven children, Julia, wife of James Gallagher, of Bethlehem; Josephine, wife of James Keleher; Kate, James, Joseph, Owen and Mary, wife of James Charlock, all of this city. The funeral notice will appear later.

His Head Cut Open on a Curb Stone.

About 11:30 o'clock this forenoon, as William Brown was driving into his barn on Sprague avenue, the horse took fright and, turning suddenly, threw him out of the wagon. His head struck the curbstone, cutting a gash in the back of his head. He was picked up insensible and carried into his barn, where he soon revived. The horse was caught before it did any damage.

Thrown From a Wagon.

A horse driven by W. H. Rogers, the lively man, shied at an electric car near his stables on Sprague avenue, this morning, throwing Mr. Rogers out but fortunately he was not hurt. One of the wagon wheels was dashed.

An Erie Wreck at Deposit.

The Erie had another wreck, at Deposit, last night. An east bound freight train broke in two and ran together. It is said that thirty-one cars were derailed, blocking both tracks, and delaying traffic. Trains 10 and 12 were five hours late in reaching this city.

"The Songs of Old Union."

The White-Smith Music Publishing Company, of Boston, has just published in very neat form "The Songs of Old Union," a collection of the songs of Union College and other popular student songs, compiled by William R. Hall and R. Brewster Beattie, of this city.

Six Years for an Attempted Murder.

Grant Winters, the New Foundland telegraph operator, who was convicted last week in the Morris County Court of Quarter Sessions on an indictment charging him with having shot Frederick Vreeland with intent to kill, was sentenced Monday to a term of six years in State Prison by Judge Outler.

THE NEXT TAX LEVY.

It Will Be a Large One. Although Considerable Paring Has Been Done—Items the Taxpayers May Vote Upon.

When the Common Council made up its annual budget, on April 17th, the total was \$86,393.38, an amount exceeding by thousands of dollars any budget ever made up by the city or village officials.

Of this \$44,605.12 was the amount of the several items for which the Council is authorized by the charter to make appropriation; \$22,600 was the amount of the requisition made by the Board of Education; \$2,000 for sinking fund; \$800 for interest on sewer bonds; \$395.77 for interest on borrowed money and \$47.49 for erroneous tax assessments, making a total of \$25,843.26, which the Council is required to place in the tax levy, making a total of \$70,443.38. In addition to this the Council named the following sums to be voted upon by the taxpayers: Permanent street improvement, \$12,000; Thrall Hospital, \$1,250; new truck for Excelsior, \$1,800; winding town clock, \$100; annual fire parade, \$700; Gen. Lyon Post and Capt. Jackson Post each \$50, making a total of \$15,950, and a grand total as above stated \$86,393.38.

This sum was so much in excess of former years that the managers of the machine in this city, after hearing the objections of the taxpayers, believed that for the best interests of the party the paring process should be resorted to, and, after much hard work, \$4,500 was cut off the permanent street fund, \$500 from the bridge fund, \$200 from the fund for repairing city property, \$500 from the gutter fund, \$800 from the park fund, \$200 from the fund for cleaning Monhagen brook and \$200 from the fund for cleaning the black dirt brook, a total reduction of \$6,900 leaving the total levy, if the taxpayers allow the sums they are asked to vote at \$79,493.38, a sum nearly \$10,000 in excess of last year's tax levy.

It is also understood that the amount for erroneous taxes will have to be increased, but just how much is not yet known.

The sum of \$7,500 for permanent street improvements means the expenditure of \$22,500 in permanent work, two thirds of which will be paid by property owners in addition to their share of the \$7,500 if the work is done on streets where there are no electric railway tracks, but considerable more if, as it is understood, the money is to be spent in paving East Main street from the Square to the Erie tracks and Wickham avenue from North street to the O and W. tracks. It remains for the people to say if they are willing to do this much work in one year, and also if Excelsior shall have a new truck, Thrall Hospital \$1,250, the firemen \$700 for a parade and the G. A. R. Posts \$50 each.

HYMNICAL.

Conkling—Hoffman.

Wilmet Vail Conkling, of Port Jervis, and Miss Louise Theodora Hoffman, of Newburgh, were married in St. George's Church, Newburgh, at 4 o'clock yesterday afternoon.

The ushers were F. Elwood Tucker and Louis Brown, of Newburgh; Howard Bennett and James Neapase, of Port Jervis. Miss Emma Conkling, of Port Jervis, was bridesmaid; Miss Elanore Hoffman, of Newburgh, was maid of honor, and Philip Hoffman, of Newburgh, was best man. The bride was attired in a gown of cream white silk, trimmed with chiffon lace and ribbons; the veil was festooned at the head with sprays of orange blossoms. The bridesmaid and maid of honor wore pink silk, trimmed with lace and ribbon.

The church was beautifully decorated with pink and white flowers by the Girls' Friendly Society of the church, of which the bride was a member.

Immediately following the ceremony at the church a reception was held at the home of the bride's parents, No. 26 Water street, at which guests from New York, Brooklyn, Port Jervis and Middletown were present.

After their bridal journey Mr. and Mrs. Conkling will reside in Port Jervis, where Mr. Conkling is engaged in the music business.

ABSOLUTELY PURE

IN ANCIENT GOSHEN.

GEO. B. ADAMS & CO.

The First Concert of the Fourth Annual Festival of the Goshen Vocal Society.

From a Special Correspondent.

The fourth annual festival of the Goshen Vocal Society, last evening, opened with one of the most pleasing concerts ever given by that organization. The first part of the programme was made up of incidental selections by the string quartette and soloists, and was as follows:

Variation.....Haydn
Quartette.....
a) Awake to Love.....Hawley
b) Because I Love You.....Hawley
Fond Heart, Farewell.....Hope Temple
Miss Clary.
a) Dear Lady Mine.....O. English
b) Minnelied (1835).....Volsky
Dr. Yarin.
a) Serenade.....Moszkowski
b) Dream after the Ball.....Crikuba
Quartette.....
Villanelle.....Dellacqua
Miss Hilke
Finale and Nottun—Artha
Miss Hilke, Miss Clary, Mr. Greene, Dr. Martin.

Each number of this part of the programme was well rendered. The playing of the string quartette was especially delightful and artistic. The audience showed its appreciation by hearty applause and liberal encores. When Miss Clary was recalled she responded with the now famous "Ban Bolt," recently rescued from oblivion by Mr. Du Maurier.

The "Staat Mater" was well and smoothly sung throughout. The soloists were fine, the choruses were rendered with spirit and the accompaniments delightfully played by the string quartette and pianist. Miss Hilke is always a favorite with a Goshen audience, and this was evidenced, last evening, by the hearty applause that greeted her appearance on the stage. Her magnificent voice and brilliant execution were particularly noticeable in the closing number, the "Inflammatus." Miss Clary had never sung before in our village. Her voice is exceptionally rich and deep. She sang the Cavatina, "Fac ut Portem," particularly well. As every one knows, one of the gems of the "Stabat Mater" is the tenor solo, "Cujus Animam," and this, Mr. Thomas Evans Greene sang remarkably well, and with great fire and expression, it being well suited to his voice, which is of the quality known as "robusto." It is some time since the society has had the assistance of Dr. Martin at its concerts, but, judging from the way in which he was received by the audience, he has evidently lost none of his popularity. The chorus, which was ably assisted by a number of Middletown singers, did excellent work and responded nobly to the baton of the conductor, which now waved in gentle approval, and now beckoned in frantic appeal.

Something unheard of in the annals of the Vocal Society happened during the progress of the concert—it rained.

SCHOOL BOYS IN THE RING

Two of Norwich's High School Pupils Fight at the Driving Park

Two students in the Academic department of Norwich's high school quarreled, Tuesday, and agreed to settle their differences in a fight to a finish. As soon as school was over the principals, their seconds, a referee, nearly all the pupils of the school and some of the townsfolk, who had heard that the fight was on, adjourned to the Driving Park, where a ring was pitched directly in front of the grand stand.

The fight was to consist of an unlimited number of minute and one-half rounds with one minute intermissions, but after two rounds had been fought one of the seconds refused to let his man re-enter the ring, and the referee called the fight off. Neither of the combatants was badly hurt and after it was all over each felt heartily ashamed of himself.

PRIZES WORTH COMPETING FOR

The Liberal Offer Made by the C. E. Crawford Furniture Company

In the window of the C. E. Crawford Furniture Company's store may be seen a Wheeler & Wilson sewing machine, a gold watch and a handsome chair, labeled first, second and third prize, respectively. The machine is valued at \$55, the watch at \$25 and the chair at \$10. The prizes will be awarded to girls between the ages of ten and eighteen years, who send the firm the most trade during the month of June.

Girls wishing to compete will receive a package of tickets by applying at the store, which they are to distribute among their friends after placing their names upon the tickets.

When making a purchase the friend presents a ticket, and the firm will keep a record of the names and the amount purchased, and at the end of the month the girl having the largest amount of business to her credit will receive the first prize, and the other prizes will be awarded in the same manner.

In addition to her having \$20 worth of business to her credit will receive \$1 in cash, and for \$40 in trade \$2 will be paid.

The firm is making the same offer at each of its five stores, — Middletown, Newburgh, Port Jervis, Goshen and Matteawan.

SONS OF VETERANS' FIELD DAY.

Members of Capt. Jackson Camp and Drum Corps at Midway

The members of Capt. Jackson Camp and Drum Corps and their friends are having an outing at Midway Park this afternoon and they will spend the evening there, weather permitting.

It was intended to arrange a series of field sports but there was not sufficient time to do so this year and instead the members and their friends are enjoying themselves in dancing to the music of the 24th Separate Co.'s orchestra, partaking of refreshments and having a good time generally.

The Good Done By the May Frosts

The entomologists tell us that, after all, our May cold wave has been a disguised blessing. For seventeen years there has been a drop in temperature about the middle of May. It has been thought, too, in nearly every case that these cold waves did "immense damage" to crops, but it is probable that on an average they increased production. Plant lice and other destructive parasites, which begin hatching when the thermometer rises above 70°, multiply with such rapidity that if they were not killed by cold waves after the first warm weather of May it would be impossible to raise either fruit or grapes, while many cereal crops would be greatly damaged.

A Flag With a History

From the Goshen Democrat.

The flag that was used upon the staff at the soldiers' plot, Slate Hill cemetery, last Thursday, has quite a history. It was the banner at Fort Pulaski, Ga., during the Rebellion, and passed through several engagements. Many holes which were made in it by shot and shell have been patched. The flag was loaned by F. M. Cummins Post by Major A. McEl Crawford and was given him by his brother, the late General Crawford.

Fires Kill Posters Thrown Out

This afternoon as a car was passing through East Main street the horses attached to a wagon, in which were Sells Bros.' bill posters, started to run and struck the curb stone with such force that four of the men were thrown out and the paste flew high in the air and came down in a shower upon the men.

A Household Treasure

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at McKim's and Rogers' Drug store, Regu lat \$1.00, and \$1.00.

KILLED AT THE MT. EVE QUARRY.

A Quarryman Crushed Beyond Recognition by a Huge Block of Granite.

Coroner Decker was called to Mt. Eve, yesterday, and held an inquest upon George Schumann, aged thirty-five years, a quarryman, who was accidentally killed there, yesterday morning.

Schumann and a fellow workman, George Hadden, were engaged in splitting a mammoth piece of granite with wedges, when it parted unexpectedly.

Schumann was sitting on the loosened part and, as it toppled over, he was thrown into the air and landed on the ground just in time to allow the rock, which weighed ten tons, to roll over his body.

The body was crushed into an unrecognizable mass and presented a most sickening sight.

Mr. Hadden had a very narrow escape from a similar fate. He heard the cracking, however, and managed to get clear of the rock by a very narrow margin, but did not have time to warn his friend.

Schumann was considered by Mr. B. J. Mallor, his employer, to be one of his best workmen. He leaves a wife and four children.

The coroner's jury returned a verdict of accidental death.

FIRE DEPARTMENT ELECTION.

Many Firemen Favor the Re-election of the Old Officers.

The delegates from the several fire companies will meet in convention, Saturday evening, to nominate candidates for department officers, to be voted for at the annual election, on Tuesday evening next.

The present officers have given excellent satisfaction during the past year and many of the firemen would be glad to see them renominated and elected.

So far as we have been able to learn there is but little opposition to the present officers, but of course there are those who believe in passing the honors around, and it would be no surprise if the convention developed evidences of quiet work to promote some of the officers and bring others out of the ranks of companies into the department fold.

The past experience in Middletown, however, would favor the retention in office of those who have proved their efficiency, rather than to entrust the responsibility of office to inexperienced men.

"Banjo" Signals for the O and W.

The O. and W. Railway Company is putting in a system of electric signals for the protection of trains in the yard. They are what are known as "banjo" signals. They are operated by electricity through bonded steel rails. One will be placed near each depot, and one a considerable distance from the yard limits at both ends.

McQuoids Have a Ball Team

McQuoid Engine Company organized a ball team, last evening, with Thomas Nevins as Captain. The club is now ready to hear from other fire company teams.

Where Widows Abound

From the Norwich Sun

The village of South New Berlin has a larger percentage of widows than any village in that vicinity, there being in a three-fourths of a mile radius from the post-office forty-six widows, ranging from 25 years of age to 100 years and seven months.

GAS DRUNKARDS.

From the Patterson Press

"Gas drunkards" are the latest freak of abnormal appetite. A Covington, Ky., policeman found several boys, in a deep slumber lying on the grass by the roadside. It required some work to awaken them. Each had a handkerchief spread over his mouth, and the policeman thought at first that he had run across a suicide club. The boys finally said that they had climbed one of the city lamp posts and turned on the gas until their handkerchiefs had been thoroughly saturated. Then they had climbed down and retired to the grass to lie down and have a good sleep. They described the sensation produced from inhaling the gas as delightful, producing a dreamy condition lasting for an hour. The practice has been going on among hundreds of boys there for some time, and many of them are "gas drunkards."

LITERARY NOTES.

—Miss Julia Macgruder, whose story of "The Princess Soria," in the Century, is attracting such favorable comment, has given her new novel to The Ladies' Home Journal. It is called "The Violet" and deals with the question of second marriage. Mr. C. D. Gibson, the illustrator, is making a series of pictures for the novel.

William Inman, 75 years old, of this city, was cured of double Rupture by Drs. Jones & Potter 16 months ago and does not wear any truss.

This kind of evidence should encourage others in taking the same treatment. Russell House, Thursdays.

PRICE DEPENDS ON SPEED.

The Novel Terms on Which a Kingston Man Offers to Sell a Trotter.

The price to be paid for a horse has usually been fixed by agreement between buyer and seller without any more definite basis than the anxiety of the owner to sell and the willingness of the buyer to put up the cash or collateral. It has remained for a Kingston man to formulate a rule which, in the case of trotting horses at least, reduces the question of price to an exact science. Mr. W. H. Cory, of that city, who was formerly in the cigar and tobacco business in this city, offered to sell his horse Trotter, for \$1,000, with the stipulation that in a trial mile, for every second slower than 2:20 he was to deduct \$100 from the price, and for every second faster than 2:20 \$100 was to be added to the price. While this system may not commend itself to every buyer and seller of horses, it is nevertheless interesting as furnishing a suggestion which may possibly be of value in determining the price of horses.
